

Smaller community operators don't get the attention they deserve from software providers. That's why the team at AL Advantage has dedicated our time, expertise, and technology to specifically meet your needs and budget. Our care management software is designed BY veteran caregivers FOR caregivers and is best known as the "easiest to use" technology in senior living. And because your team works around the clock for your residents, we'll be available to support you 24/7.

It's time to move away from paper processes that cause errors, frustration, and ultimately pull time and money away from providing exceptional care.

*All for less than 25¢ per resident a day!*

You don't even have to take our word for it! We believe so strongly in the value our technology can bring to your staff and residents, we'll let try it for free and guarantee you'll never have set up fees, long-term contracts, or cancellation fees.

## THE BENEFITS OF ASSISTED LIVING SOFTWARE:

### One-Time Data Entry

Time-saving "type once" entered data flows to all assessments, service plans and caregiver instructions

### Reduced Caregiver Stress

Assisted Living Software designed by seasoned senior care providers to simplify on-the-job stress levels

### State-Specific Compliance

Required content categories meet all state care reporting requirements for independent living, assisted living, and memory care
