Floor and wall solutions for commercial and private housing

Transforming spaces in social housing and home adaptations

The way a home looks is just as important as how it functions. Our range of design-led products will give you everything you need to create and maintain a safe and welcoming environment.

Communal areas can be exposed to dirt, water, bumps and scratches. Bathrooms and kitchens have potential for slips and damage caused by water ingress and mold. Surfaces should be safe, durable and aesthetically pleasing, creating a place tenants are happy to call home.

Altro provides safety solutions for kitchens, bathrooms and circulation areas as well as 'home from home' look floors and walls for domestic living spaces such as living rooms, bedrooms and dining rooms.

We're here to support you every step of the way, from specification and installation to aftercare, backed by some of the longest industry warranties. It's all part of the Altro promise.

Altro is a member of the Dementia Action Alliance; our guidance supports design principles outlined in DoH HBN 08-02. We are also a partner of Foundations - the National Body for Home Improvement Agencies and Handyperson Services in England.

Did you know?

The number of households headed by someone who is at least 80 years old is expected to double to roughly 15 million by 2037.

U.S. Department of Housing and Urban Development (HUD)

Home adaptations allow individuals who are disabled, aging or vulnerable to continue to live in their own homes safely. Physical and mental health can deteriorate over time; by preemptively adapting a home now it allows you to create a familiar environment that lasts.

Altro solutions offer color and design flexibility, making an adaptation feel like home. We provide guidance for floor and wall selection, particularly taking into account health issues.

Our complete package of floors and walls work together for a seamless, easy to clean and watertight solution that can handle the knocks and bumps of life and reduce maintenance and repair costs.

Altro smooth sheet floors and walls can be used together for easy to clean, smooth surfaces that do not allow mold and vermin to take hold. Our acoustic floor options provide noise reduction between floors and ample comfort underfoot. These ranges are perfect for internal rooms with a low potential for spills from water and contaminants.

Safety in key areas

Combine Altro safety floors with Altro Whiterock hygienic walls in areas such as bathrooms and domestic kitchens, where hygiene and safety are paramount.

All Altro floors and walls have industry-leading warranties.

Product	PTV (Slider 96) / R Rating	Lifetime sustained slip-resistance	Bathrooms	Domestic kitchens

* Not to be installed directly behind a cooker.

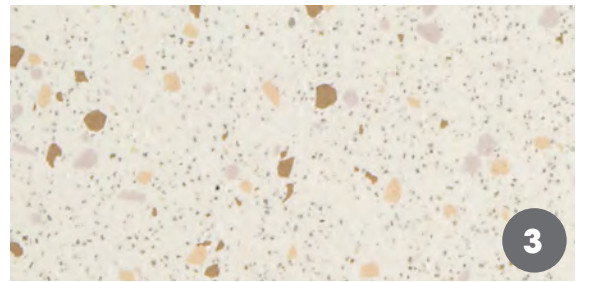

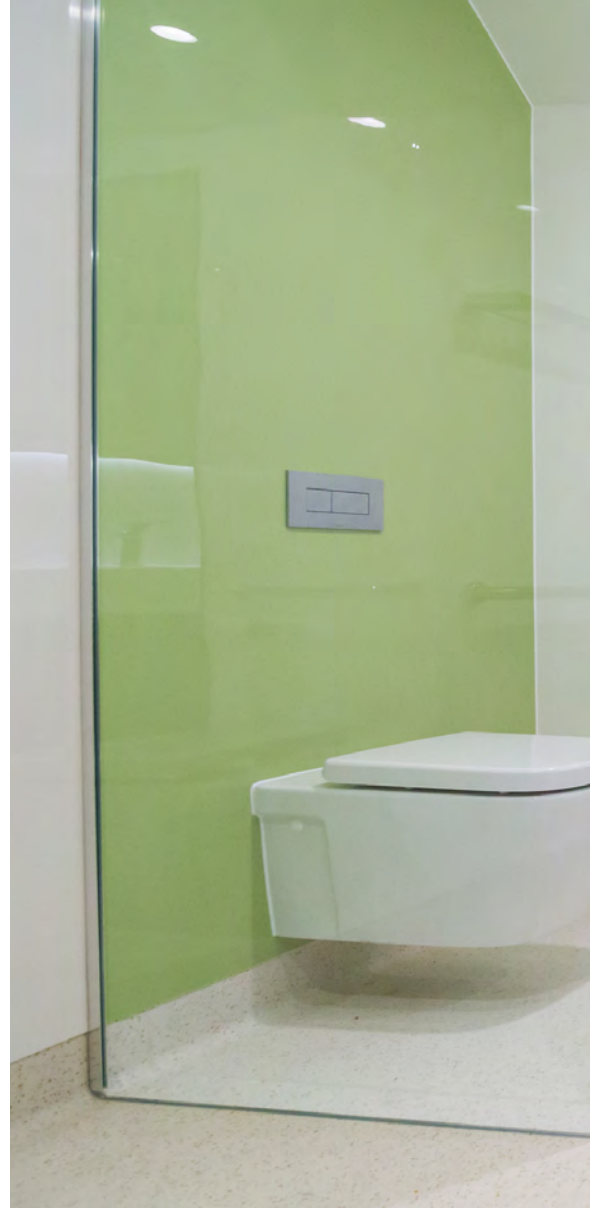

Did you know?

Only 1% of homes in the United States are conducive to aging in place, but more than 75% of older Americans want to stay in their own homes for as long as possible.

Rodney Harrell, director of livability thought leadership for AARP

Cleaning

Proper cleaning is essential to keeping a facility hygienic no matter which interior finishes are selected. We highly recommend that a cleaning and sanitizing program is created specific to your facility that utilizes the resources and products as recommend by individual manufacturers.

Our cleaning guidelines are available at [altro.com](https://www.altro.com)

Samples

Altro recommends that color selection is never made through printed or digital materials. Please order a physical sample for color and pattern approval before placing your order with us.

Order samples 24 hours a day at [altro.com](https://www.altro.com) or find us on Material Bank.
